Il Museo della Scienza e della Tecnologia "Leonardo da Vinci" di Milano ha organizzato una mostra dedicata ai 25 anni di animazione Pixar. La mostra è divisa in due sezioni: la prima sezione è dedicata alla storia di Pixar e alla sua evoluzione, mentre la seconda sezione è dedicata alle opere più recenti della casa di Cupertino. La mostra è curata da Roberto Gatti e si svolge dal 25 novembre 2011 al 16 febbraio 2012. Per informazioni, visitate il sito www.museo.leonardo.org.

CARIPLO

«Each place has its Soul,
and it should be listened to.»

Sound artist Chiara Luciani presents
"After The Sunburn", the first
soundtrack made with the noise,
echoes, vibrations and materials of
MEET's new spaces.

Through a number of sound recordings
and samplings of pure noise, the artist
created a soundtrack for every single
"space", so that they could speak
"themselves". Each space will not only be "seen",
it will also be "listened to" and played as
a musical instrument. In this way, the
space (in each space) or all together
will be the "instrument".
